About Me

CS undergrad at IIITDM Kurnool with 3 internships, 2 paying clients, and 3 independently shipped products. Competed in 4 hackathons including Smart India Hackathon. Certified through NPTEL, IBM, and industry simulations. Active GitHub contributor, GDG on Campus member, and open source contributor with PRs to IEEE SoC 2025. Currently building a prompt translation layer for vibe coding IDEs and exploring Agentic AI systems and MCP architectures.

Education

Indian Institute of Information Technology, Kurnool (BTech, CSE) Aug 2023 - present
◦ **Coursework:** DBMS, AI ML, OOPS, Communication Networks, DSA, Compiler Design, OS and Economics

Experience

AI System Developer - Syntropy Labworks [LoR](#) [↗](#) Current - Apr 2026
◦ Building Mobile native based pipeline for text extraction from an image, with high accuracy, without cloud support. Tested OCR models like PP-OCRV3 and v4, and tesseract for this pipeline, with my team.

Product & Operations Intern at SARVAGYA NIRAKAR [LoR](#) [↗](#) May 2025 - Aug 2025
◦ Led cross-functional team of 8+ contributors as Product Manager and Developer; delivered 2 functionality modules and 2 UI wireframes for the project. [Vakya-Sangham](#) [↗](#)
◦ Directed HR & Public Executive operations by coordinating 10+ community interactions, managing 2 recruitment cycles, Creating 3+ project pitch decks and supporting outreach that increased engagement by 23%.

AI & Cloud Technologies Virtual Internship by IBM SkillsBuild [CoC](#) [↗](#) May 2025 - June 2025
◦ Delivered 5+ course modules, 100% course completion, and built SKILLITH, an end to end AI-powered Learning Path Recommender using IBM watsonX. [Skillith](#) [↗](#)

Projects

DropIQ [Repo](#) [↗](#) [Live](#) [↗](#)
Full stack SaaS platform for real time price comparison across 9+ retailers and 1885+ products. Independently built and shipped from scratch, gaining 5+ users within 3 days of deployment with No marketing.

RoadVL: Vision-Language Road Scene Retrieval [Repo](#) [↗](#)
Investigated and evaluated 6+ approaches including BLIP caption synthesis, CLIP fine-tuning, and multiclass segmentation across two datasets. Concluded binary U-Net segmentation for IITH road dataset images.

Mirror Space (Published on npm) [Repo](#) [↗](#)
Built a CLI screen-broadcasting tool with delta pixel transmission (only changed pixels sent per frame), cutting redundant data transfer significantly. Supported region/window-specific capture, hash-based receiver authentication

Loomio [Repo](#) [↗](#) [Live](#) [↗](#)
Built a full-stack platform supporting 3 user roles, 7+ functional modules, and real-time operations for distributed group coordination with role-based access, task assignment, attendance tracking, and contribution scoring.

Practice Projects: Loomio(a full stack community management system) , Anomaly Detection(FRAPE) and Hostel tracker

Skills

Skills: C, Cpp, Py, Full Stack Development, Computer Vision, Machine Learning, AI Agents, Leadership & Communication

Tools & Softwares: VSCode, Git, Github, Canva, Notion, Vercel, Render, Linux, AI IDE's and Terminal Agents

Interests: Agentic AI systems, Finance and Entrepreneurship

Certifications & Achievements

- NPTEL Elite+Gold Certificate: Top 1% rank holder in [Cloud Computing](#) [↗](#) Course, by Prof. Sowmya Kanti Ghosh.
- Smart India Hackathon 2025: selected at institute for proposal of unique college placement portal.
- Spoken Tutorial - IIT Bombay : Earned certificate in [Linux](#) [↗](#), [Python](#) [↗](#), [C](#) [↗](#)
- Certification in [Tech. Job Simulation](#) [↗](#) by Deloitte
